

Piotr Cichowlas

Objective:

Cybersecurity specialist with a focus on network security, penetration testing, and incident response. Committed to protecting digital assets through proactive threat detection. Ready to apply analytical and technical skills to safeguard organizations against evolving cyber threats.

Experience:

Personnel Assistant | Lespín Sp. z o.o., Leszno, Greater Poland | 2019 – 2020

- Assisted in the migration of data between systems and supported daily operations by creating schedules and assisting staff with their tasks.

Frontend Developer | TKH Technology, Leszno, Greater Poland | 2020 – 2021

- Worked on a comprehensive project involving both web and mobile applications using React, Cloud Functions, and Firebase. Developed and maintained responsive user interfaces, integrated real-time database functionality, and ensured seamless performance across platforms.

Video editor | Brandive, Remotely based | 2021 – 2024

- Specialized in editing YouTube videos using Adobe Creative Suite, delivering high-quality content that aligns with brand guidelines. Managed the entire post-production process, including cutting, color grading, audio mixing, and adding visual effects.

Skills:

- Penetration Testing & Risk Assessment
- Network & Application Security
- Quick Learner & Adaptable
- Custom Security Tool Development
- Critical Thinking & Problem-Solving
- Effective Communication & Team Collaboration

Education:

- Engineer's Degree in Cybersecurity, Wrocław University of Science and Technology, 2022
- Master Degree in Cybersecurity, Wrocław University of Science and Technology, 2024

Certifications:

- Cisco Network Security
- CCNA: Enterprise Networking, Security & Automation
- CCNA: Switching, Routing & Wireless Essentials
- CCNA: Introduction to Networks
